

WMNS-LD Silent Authority of an LPTV Station Application

Reason for Request

The licensee requests Special Temporary Authority for WMNS-LD to remain silent because its antenna and satellite reception dish were destroyed by Hurricane Irma on September 6, 2017.

The LMS system only permits an applicant to enter a date the station went silent that is no more than 30 days before the filing of the silent STA request. As a result, the earliest date that could be entered for the station status for this silent STA request was October 14, 2017. Limited communication prevented an earlier filing of this silent STA request.
