

Class A TV Station WWDT-CD • Channel 43 • Naples, Florida

Environmental Exhibit

The intent of this application is to update the coordinates of licensed Class A TV Station WWDT-CD, pre-auction Channel 43, Naples, Florida, to match the coordinates in the updated antenna structure registration (ASR number 1038046). No changes are proposed to the location of the facility or to any operating parameters.

An environmental assessment is not required, as grant of this request would not be considered a major environmental action. The maximum calculated power density at 2 meters above ground was found to be less than 5% of the applicable public exposure limit. The proposed operation is therefore categorically excluded under Section 1.1307(b)(3) of the FCC rules from having to consider the contributions of other stations at the site. None of the other factors specified in Section 1.1307 of the Rules are believed to apply.
