

Environmental Statement  
K02QP-D  
11/23/2017

The applicant proposes to operate at 9 meters AGL horizontally polarized at 550 watts using two Kathrein-Scala CA-2 antennas. This proposal is well within both the controlled and uncontrolled radiation limits. Additionally, the site is fenced. Nevertheless, the applicant will ensure placards warning of radiation hazard are posted in and around the site at all times and that station staff are trained how to cease operate in the event of anyone climbing the tower.
