

INTERFERENCE ACCEPTANCE STATEMENT

Entravision Holdings, LLC (“Entravision”) is the licensee of both Stations KFXV-LD, McAllen, Texas (FCC FIN: 49038) and KXFX-CD, Brownsville, Texas (FCC FIN: 32179).

Both KFXV-LD and KXFX-CD operate on output Channel 20.

Entravision seeks to expand the coverage contour of KFXV-LD and proposes to file an application with the FCC requesting authority to do so. It has been advised that it is predicted that the broadcast signal of KFXV-LD being proposed will cause interference to KXFX-CD in excess of the threshold permitted by the rules and regulations of the FCC. Entravision has reviewed this matter with its engineering consultant and is aware of the locations where the interference will occur and the level of interference that KXFX-CD can be expected to receive.

After due consideration, Entravision, as the licensee of the commonly-owned KXFX-CD, wishes to confirm that it accepts the level of interference that its commonly-owned KFXV-LD is predicted to cause to its commonly-owned KXFX-CD.

Entravision is submitting this Statement to the FCC in support of the Form 2100 application that is being submitted for KFXV-LD
