

## NOTICE OF COMPLIANCE

Entravision Holdings, LLC (“Entravision”), the licensee of Station WUVN, Hartford, Connecticut, hereby wishes to advise the FCC that, pursuant to Section 73.3700(c)(1) of the Commission’s Rules, it complied with the consumer education requirements for its transition from operations on Channel 46 at Hartford, Connecticut, to Channel 47 at Hartford, Connecticut.

In regard hereto, Entravision wishes to advise the Commission that it had intended to undertake the transition on December 15, 2017. However, on December 14, 2017, it was advised by certain MVPDs in the Hartford DMA that, owing to internal communications problems, they were unable to complete the transition on December 15. Entravision was requested by the MVPDs to cooperate with them and to change the transition date to December 31, 2017.

Entravision, on December 15, 2017, commenced consumer education notifications advising of the new transition date. Entravision submits that the less than 30 days of this notice is acceptable in this instance as it was necessitated by circumstances beyond Entravision’s control in the form of MVPDs that were unable to accommodate the December 15 transition date and requested additional time in which to complete their transition process.
