

## **BASIS FOR REQUEST**

On December 31, 2017, technical issues arose in the fiber optic delivery service that fed the broadcasting signal of Station WHTX-LD to the Station's transmitter.

As a result of these technical issues, WHTX-LD was unable to broadcast and has had to go off-air. The licensee of WHTX-LD is working on a solution to this problem and expects to be submitting an STA request in the coming days and, with the facilities authorized by such an STA, to be able to restore broadcast service for the Station at the earliest possible time.
