Engineering Statement
DK11AD FID 38303 Digital Ch 11

Applicant previously had an STA to operate on digital Ch11 and inadvertently allowed the STA to lapse applicant would like to continue the use of digital Ch 11 to serve the rural community of Loma, MT.

This translator was previously licensed as K11AD. This is an isolated area and the applicant feels it is in the public interest to continue over the air serve.

Applicant will file for a proper license at the next available opportunity.

The antenna will be installed on an existing tower and the equipment will be in an existing building. No construction is required.

Respectfully submitted,

B. W. St. Clair
Engineering Consultant
