### EXPLANATION TO OUR TIME OUT OF THE AIR DUE TO THE PASSAGE OF HURRICANE MARIA

Due to the damages caused to our facilities and our antennas, by the passage of Hurricane Maria through Puerto Rico, the signals of our three television channels (Wora-TV (ch 10.1), ABC5 (ch 10.2) and ViveTV (ch 10.3)) were out of the air from September 20, 2017 until November 1, 2017. After November 1, 2017 and due to problems with the electric power system and / or with the electric generators, we have faced occasional problems in our transmissions.
