

## Other issues that must be addressed before it can fully construct and/or operate its post-auction facility

The WIPR facilities were located at the hurricane toppled WAPA tower and destroyed building, a decision by WAPA to either rebuild or not is critical for WIPR. If WAPA decides not to rebuild WIPR will have to decide either, move to a lower ground reduced coverage site owned by WIPR and rebuild the existing tower, or build a new tower and transmitter room at their own expense at the WAPA site, both options will take months and WIPR hands are tied until WAPA decision.
