

Request for Extension of STA

The instant application hereby requests extension of the licensee's experimental authority in File Number BDSTA-20110602ACR and most recently extended in File Number 0000027210, pursuant to Section 74.102 and 74.131 of the Commission's rules. The experimental authority authorized WGAL(DT)'s digital operation pursuant to the technical parameters set forth in WGAL(DT)'s minor change application pending in FCC File Number BPCDT-20110516ACI, which was recently amended during the FCC's maximization window for non-repacked facilities.

WGAL(DT)'s operation pursuant to the experimental authority continues to provide improved reception for WGAL(DT)'s viewers, and the licensee has received no complaints of interference from any other television stations or viewers. The licensee submits that continued operation pursuant to the experimental authority clearly advances the public interest.

Accordingly, for the reasons stated herein, and for the reasons set forth in the pending minor change application (FCC File No. BPCDT-20110516ACI), WGAL(DT) respectfully requests extension of the experimental authority for the maximum permissible time.
