PURPOSE OF AMENDMENT 1.16.2018

The sole purpose of this second amendment to the application is to submit a letter from the National Radio Astronomy Observatory (NRAO) approving the proposal.

A previous amendment was filed, on 12/29/2016, to rotate the antenna slightly to meet a request by the National Radio Astronomy Observatory (NRAO) made during the process of coordinating the proposal with the Observatory.

The multiple ownership compliance exhibit was also previously updated to reflect a Commission-approved *pro forma* transfer of control of the licensee due to the recent death of Bernard E. Waterman.
