

## KUIL-LD

### Silent Notification and STA Request

Station KUIL-LD went silent on or about August 30, 2017, due to damage received from Hurricane Harvey. The licensee requests authorization for the station to remain silent while the damage continues to be assessed and plans for repairs are made.

The date the station went silent is listed in the form as January 22, 2018, because LMS would not accept an earlier date.
