

Request for Waiver of 47 C.F.R. 73.3517

In accordance with DA 17-442, Procedures for LPTV Displacement Stations, Released: May 12, 2017, (Paragraph 12), this is a request to waive the contingent application rule filed by an operating LPTV/translator station that is subject to displacement. There are no channels in New York City other than the proposed channel that will provide continued service to WNYN-LD viewers before the repack transition is complete. This waiver is needed as this application is contingent upon construction of other CP(s) per the repack transition.

Concurrent with this application for CP, the applicant is also filing a separate request for Construction Permit to operate on channel 30 after the repack transition takes place, as it is the recipient of a T-Mobile letter displacing it from its licensed Channel 39 later this month.
