TECHNICAL EXHIBIT

2018 DISPLACEMENT/FILING WINDOW FOR LPTV AND TV TRANSLATOR STATIONS

FACILITY: W41BQ, FI 67015
ASHEVILLE, NC
EDGE SPECTRUM, INC.
Existing FCC file number BLTTL-19950626IG

Pursuant to the LPTV/Translator displacement/filing window of 2018 arising from the incentive auction 600 MHz TV band repack, the within application is filed to change the facility as follows: change out of new core output channel to UHF 22, FULL SERVICE mask. Antenna make and model is JAM JASS LOBE 22 DIRECTIONAL to be located on tower ASR 1033392 at 30 m AGL, specified rotation 150°. *FCC: Please note that this application duplicates application BDISDTL20120119ABD which has remained a CP. If retention of that application remains appropriate for the present situation, please do so and if not, the within application has been studied against the current database and is grantable in place of the outstanding application.*

NIER is less than 5% of the limit for this service; no new tower construction is planned. Using the specified equipment, pattern and ERP, the application is in compliance with all pertinent portions of §74.793 with respect to all existing part 73 and part 74 licenses, permits and applications known as of the time of filing; however, as a station in the LPTV or TX service which is displaced into the core or otherwise required to modify its facilities in accordance with the presence of an incoming repacked full service station assigned to its previous channel, the within applicant agrees, if necessary, to not operate on the channel or with the service proposed in the within application until any potentially mutually interfering repacked full service station or stations have left their channels pursuant to the relevant phase assignment(s).
