KORY-CD, Eugene, OR
Facility ID 71070

REASON FOR GOING SILENT

The KORY-CD transmitter is reaching the end of its useful life and is no longer able to achieve the station's licensed power level.

A new transmitter has been ordered. The estimated time for manufacture, delivery, installation, and resumption of operation is 60-90 days.

Since the transmitter is failing, cannot achieve licensed parameters, and could become completely inoperable at any time, it has been shut down and taken out of service; so the station will be silent until the new transmitter arrives and is installed.
