

Gray Television Licensee, LLC requests an extension and reinstatement of authority for K33MP-D, Alexandria, LA, facility ID 186715, to remain silent nunc pro tunc. K33MP-D went silent on 9/29/2017. However, when the FCC granted its long-pending license application on January 10, 2018 (filed on 9/29/2016), LMS automatically updated K33MP-D's status to "operating," even though the station was silent and had not filed a resumption notice. K33MP-D was unable to file for an extension of its existing silent STA (0000030380) because of this glitch in the system.

K33MP-D therefore requests grant of this special temporary authority to remain silent.
