

Tower Construction and Antenna Installation

The station does have other issues that must be addressed before it can fully construct and/or operate its post-auction facility:

Licensee anticipates all equipment necessary to implement post-auction channel will be on site by September 2018 with installation and testing extending through October. Severe winter weather can leave this mountain top site inaccessible, although rare an early winter storm could interfere with our ability to commence operation on our post auction channel by the phase I deadline.
