

WJKP-LD displacement application to channel 14, Corning, NY – Facility ID No. 128778

WJKP-LD was on the air and licensed as of April 13, 2017. W41DB is licensed on frequencies repurposed for new, flexible use by a 600 MHz Band wireless licensee. It is therefore eligible to file this displacement application to an in core (channel 14) channel with facilities that satisfy allocation constraints and FCC rules. WJKP-LD is out of core on channel 39 and needs to repack into the core channels (2-36).

The applicant proposes to change WJKP-LD to channel 14 with 3 kW ERP using an OMNI antenna pattern at the presently licensed antenna location, as shown in this application.

An Interference Check with TVStudy 2.2.5 with WJKP-LD on channel 14 with 3 kW ERP is included.

The applicant acknowledges and accepts that the proposed displacement facility will receive interference from WSYT D14 DT CP SYRACUSE, NY BLANK0000034354.
