No Objection Letter

Redwood Television Improvement Corporation understands that Cooperative Television Association of Southern Minnesota is filing to displace K40BU-D to Ch 17. The applicant and ourselves have been part of a coordinated effort to displace channels into the core and have agreed to small amounts of interference in order to make the plan work. As such, Redwood Television Corporation has no objection to the 2.1% predicted interference to our channel K17BV-D from K40BU-D Ch 17.

Sincerely,  
Dave Hansen  
President
