

Request for Waiver of the Contingent Application Rule, 47 C.F.R. § 73.3517

As demonstrated elsewhere in this application, Station K36IV-D qualifies for displacement due to interference predicted to be caused to the planned repack operations of full-power Station KWDS (Ch.36D), Sioux Falls, SD. (See LMS File No. 000003567). In proposing displacement of K36IV-D to Channel 22, a waiver of 47 CFR §73.3517 is requested with respect to K22HJ-D, Worthington, MN (Facility ID 28491). In this regard, it is the understanding of the Applicant that K22HJ-D also qualifies for displacement and will be applying for a new operating channel due to interference that will occur with the repacked operation of KDLT-TV, Sioux Falls, SD (Ch. 21). (See LMS File No. 0000027512). Nonetheless, to comply with Section 73.3700(g)(2) of the Commission's Rules, the Applicant will not transmit on Channel 22 prior to the discontinuation of operations on Channel 22 by K22HJ-D without the consent of the licensee of K22HJ-D.
