

TECHNICAL EXHIBIT

2018 DISPLACEMENT WINDOW FOR LPTV AND TV TRANSLATOR STATIONS

FACILITY: WDG-T-LD, FI 6046

MIAMI, FL

CAYO HUESO NETWORKS, LLC

Existing FCC file number

BLDVL-20141014AAW

Pursuant to the LPTV/Translator displacement window of 2018 arising from the incentive auction 600 MHz TV band repack, the within application is filed to change the facility's output channel to 5, Full Service mask. Per the repack, WSVN is changing to channel 9. Antenna make and model changed to SCA DRV to be located on the existing tower at same elevation as underlying specified antenna and rotated to 200° T.

NIER is less than 5% of the limit for this service; no new tower construction is planned. Using the specified equipment, pattern and ERP, the application is in compliance with all pertinent portions of §74.793 with respect to all existing part 73 and part 74 licenses, permits and applications known as of the time of filing; however, as a station in the LPTV or TX service which is displaced or otherwise required to modify its facilities in accordance with the presence of an incoming repacked full service station assigned to its previous channel, the within applicant agrees, if necessary, to not operate on the channel or with the service proposed in the within application until any potentially mutually interfering repacked full service station or stations have left their channels pursuant to the relevant phase assignment(s).
