

AMENDMENT TO WVBG-LD DISPLACEMENT APPLICATION TO NOW SPECIFY CHANNEL 35

The applicant originally filed for Channel 27 as its displacement channel in LMS-0000054509. It has been learned that WNYT-DT has filed a displacement application for the same channel for its digital replacement translator in Albany, New York, just a few kilometers from the site of WVBG-LP. The two applications are mutually exclusive.

Since displaced digital replacement translator applications are given preference over LPTV displacement applications in this filing window, the applicant hereby amends its displacement application to now specify Channel 35 at the present WVBG-LP site.
