

AMENDMENT TO WJGP-LD DISPLACEMENT APPLICATION TO NOW SPECIFY CHANNEL 25

The applicant originally filed for Channel 23 as its displacement channel in LMS-0000054651. It has been learned that WXMI-DT has filed a displacement application for the same channel for its digital replacement translator in Battle Creek, Michigan, just a few kilometers from the site of WJGP-LP. The two applications are mutually exclusive.

Since displaced digital replacement translator applications are given preference over LPTV displacement applications in this filing window, the applicant hereby amends its displacement application to now specify Channel 25 at the present WJGP-LD site.
