

Silent STA explanation

WTXI-LD went silent on June 1, 2018 as a result of being displaced by Station WJAN-CD, Miami, FL which received an early repack transition waiver to commence operation on Ch. 33 (WTXI's licensed channel) as of that date.

WTXI-LD is currently airing its programming on WFUN-LD subchannels until disposition of its pending displacement application or the filing and grant of an STA for an interim channel.
