Request for Extension of Silent STA

June 2018 Update: The licensee respectfully requests extension of silent special temporary authority most recently granted in LMS File No. 0000036413. On December 13, 2017, the tower hosting TV translator facility W10AK-D fell. As a result, W10AK-D is currently off the air. Although the licensee has a tower crew scheduled to start repairs, inclement weather has delayed the process. The licensee anticipates work will start within several weeks barring any further weather impediments.

Accordingly, the licensee respectfully requests STA to remain silent for an additional six months. The licensee will notify the Commission when operations are restored.
