

**RF Exposure Statement  
K46AK-D Prineville, OR  
Channel 19**

The facility proposed in this application will operate with an effective radiated power (ERP) of 15 kW and a center of radiation 17 meters above ground level (AGL). In that numerous facilities are located at this site, the applicant, in coordination with the other occupants of the transmitter site, shall conduct radio frequency (RF) power density measurements throughout the transmitter site area to confirm compliance with the FCC specified guidelines for human exposure to RF energy. Therefore, the proposal complies with section 1.1307(b) of the FCC rules regarding human exposure to RF energy. In the event that personnel are required to enter a restricted area or climb the tower structure, the proposed transmissions shall be reduced or terminated as necessary to prevent RF exposure above the FCC recommended limits
