

KQDS Acquisition Corp., Duluth, MN  
Suspension of Operations  
June 2018

The viewing area of TV translator K39GG has been modified so that it now is part of the Minneapolis-St. Paul, Minnesota DMA, and not the Duluth, Minnesota-Superior, Wisconsin DMA, which is where it was built and is the DMA of its primary station, KQDS-TV. Thus, the viewership of this TV translator is insufficient to support its continued operation, especially in light of the considerable new expense that would be necessary to move its operations to a new channel as a consequence of displacement to be caused by the broadcast incentive auction.
