

***AMENDMENT TO
APPLICATION FOR CONSTRUCTION PERMIT***

**WASV-LP - ASHEVILLE, NORTH CAROLINA
FACILITY ID: 47722**

DIGITAL NETWORKS—SOUTHEAST, LLC

JUNE 2018

AMENDMENT TO APPLICATION FOR CONSTRUCTION PERMIT - DISPLACEMENT

The following engineering statement has been prepared for **Digital Networks-Southeast, LLC** ("Southeast"), licensee of low power digital television station WASV-LP at Asheville, North Carolina, and is in support of their amendment to application for construction permit.¹ This amendment pertains to the original displacement application under LMS File No. 0000055083.

Under that application, Southeast sought displacement relief for WASV-LP, which is licensed on channel 50 as a digital low-power power television facility.² The above referenced application proposes operation on channel 36. This amendment seeks to provide additional information about the submission of the original application.

The original application was created in the Commission's LMS system during the recent displacement filing window. However, due to some unfamiliarity with the system, the application was believed to have been "filed", when in reality was only merely "saved". As a result, Southeast has respectfully requested a waiver of the filing freeze in the engineering statement attached to the original application, which continues as part of this amendment.

As indicated in the original engineering statement, the proposed facility does not result in any mutual exclusivity conditions beyond that with WYFF at Greenville, South Carolina. That situation will become moot upon the conclusion of Phase 5 with WYFF facility transitioning to operation on channel 30. The requested waiver to the filing freeze is in the public interest as WAV-LP is an operational facility that serves the community of license.

¹ The Facility ID for WASV-LP at Asheville, North Carolina is 47722.

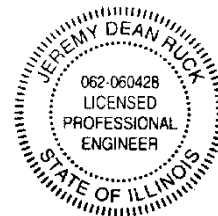

² See FCC File No. BLDTL-20130325AKQ.
