Re: 1st Quarter 2018 FCC 398 Addendum

America's Heartland, Animal Science, Awesome Adventures and Origins were preempted on Saturday, February 17, due to breaking news coverage of the funeral for Chicago Police Commander Paul Bauer. All four programs were rescheduled the following Saturday, February 24, immediately following the regularly scheduled E/I programming block. Please see amended Form 398, attached, for details.

Due to an oversight, these preemptions and makegoods were omitted from the FCC 398 filed on April 9, 2018, which is hereby resubmitted.
