

Request for Extension of STA

The instant request is for an Extension of Special Temporary Authority (STA) for WDBD, Jackson, Mississippi (the "Station"), which is licensed for operation on Channel 40 (FCC File No. BLCDT-20090612ADU). As authorized in the current STA (LMS File No. 0000050620), which expires October 15, 2018, the Station is authorized to operate the WDBD STA facility on channel 40 with a directional antenna side-mounted at a height of 527.6 meters above ground level on WDBD's current tower.

The current STA is being modified to operate the facility with a directional antenna side-mounted at a height of 195 meters above ground level from a tower located adjacent to WDBD's current tower. The Station respectfully seeks modification and extension of authority to operate under special temporary authority to help facilitate the station's November 30, 2018 transition.
