

## REQUEST FOR EXTENSION OF SPECIAL TEMPORARY AUTHORITY

The instant request seeks a further extension of the operations as specified in the current special temporary authority ("STA") – see LMS No. 0000036783. As detailed in the underlying STA, filed in June 2017 and granted in July 2017 (See LMS File No. 0000025481 ("KLBK-TV STA")), Nexstar Broadcasting, Inc., licensee of KLBK-TV, Lubbock, Texas, FAC ID 3660, was forced to install a temporary antenna due to irreparable damage to the station's primary antenna. The primary antenna was also shared by KAMC(TV), Lubbock, Texas, which is licensed to Mission Broadcasting, Inc. ("Mission"). Mission, who separately sought and received a similar STA in June/July 2017 (See LMS File No. 0000025482), is also filing a request for extension of STA. Pursuant to the Commission's Spectrum Auction, KLBK-TV is a channel changing repack television station with a Phase 1 completion date of November 30, 2018. In order to conserve resources and avoid consumer confusion and broadcast outages, Nexstar proposes to continue use of the temporary antenna until the KLBK-TV transition is completed by or before November 30, 2018. Accordingly, Nexstar seeks an extension of STA to continue to operate at variance as detailed in the underlying KLBK STA.
