

REQUEST FOR SPECIAL TEMPORARY AUTHORITY (STA)

LOW POWER STATION K31NO-D (STA)  
(FORMERLY K45KM-D)  
(FACILITY ID 34879)  
BEND, OREGON  
CHANNEL 31 8.26 KW (MAX-DA) 1328 M AMSL

1. The licensee respectfully requests Special Temporary Authority (STA) for Low Power Television Station K31NO-D (formerly K45KM-D) to allow it to continue its operations on Channel 31 at a reduced effective radiated power (ERP) of 8.26 kW.
2. The K31NO-D facility is authorized for operation on RF Channel 31 with a maximum directional ERP of 15 kW with an antenna height of 1328 m AMSL. See FCC File No. 0000052547.
3. Whilst K31NO-D has completed its transition to Channel 31, it is unable to operate at the full maximum authorized ERP of 15 kW until it takes delivery of its new 1 kW transmitter. This is not expected until the first quarter of 2019.
4. Grant of this STA will allow K31NO-D to continue to provide service to the public with as little disruption to its viewers as possible. In addition, the migration of K31NO-D to Channel 31 has accelerated the deployment of 600 MHz wireless services in the Bend market.
