

KQDS Acquisition Corp. Request for Extension of Special Temporary Authority

The subject TV translator station currently is operating on a channel different from its licensed channel, under special temporary authority granted by the Commission, because of initiation of operations by T-Mobile. The instant application requests an extension of time to continue such operation pending Commission action on the licensee's application for a permanent channel to which to displace. Grant of this extension of authority would serve the public interest in uninterrupted over-the-air local broadcast services.
