

K44JA-D, Twin Falls, ID (FID 167733)
Request for Special Temporary Authority

Gray Television Licensee, LLC, licensee of K44JA requests permission to operate the facilities specified in its pending displacement application (File No. 0000054122) on a temporary basis. K44JA serves over twenty thousand people in rural Idaho and is being displaced by T-Mobile within the week. The displacement application is mutually exclusive with another application and therefore remains pending. Gray will work with the other applicant for Channel 30 to resolve the MX, including moving its final facility to another channel if necessary. However, to avoid a loss in service to these viewers just as winter weather is beginning, Gray requests authority to temporarily operate on Channel 30 at the parameters specified in its pending application.
