WHSV
50 N. Main Street
Harrisonburg, VA 22802

Mr. Kessler and Mr. Shumate,

You have asked us to build a tower for WHSV on National Forest Service land so that WHSV can transition to its repack channel during an earlier phase. We began work on the tower, by pouring the base, this week. Currently, we expect to complete construction of the tower by mid-late October, depending on weather. We confirm that performing this tower work for WHSV at this time will not impair our ability to do tower work for other stations involved in the repack transition.

Regards,

A handwritten signature in black ink, appearing to read "Joshua Anthony".
