In re: Low Power Television Application of:
Call Sign: K23FR-D
Facility Id No: 22799
Winnemucca, NV.
Channel: 23
File No.: 0000059881

Dear Applicant:

We are currently processing the above captioned application. Our preliminary analysis indicates the following:

The proposals coordinate and antenna height information as entered in the application is imported below for your review:

Coordinates (NAD83)	Latitude	41° 00' 38.5" N+
	Longitude	117° 46' 04.2" W-
	Structure Type	TOWER-A free standing or guyed structure
	Overall Structure Height (AGL)	42.7 meters
	Support Structure Height (AGL)	49.1 meters
	Ground Elevation (AMSL)	2060.0 meters

The deficiency revealed by the tower determination study is as follows:

The Support Structure Height (AGL) cannot be greater than the Overall Structure Height (AGL).

If you do not amend your application electronically within 30 days from the date of this letter to resolve the above deficiency, we will dismiss your application.

Sincerely,

Hossein Hashemzadeh
Deputy Chief
Video Division
Media Bureau
