

### **Reason for Amendment**

WDSU(TV)'s First Quarter 2017 Children's Television Programming Report was timely filed on April 7, 2017, and it is being amended on October 29, 2018, to correct a mistake on the Report as initially filed. The initial Report listed the program "Mystery Hunters," which aired on the Station's multicast channel on Saturdays at 6:00 am and 6:30 am, in the Digital Core Programming Summary section, and the program was factored into the Station's calculation of the average number of hours per week of Core Programming broadcast on its multicast stream. "Mystery Hunters" should have been reported, instead, in the Non-Core Educational and Information Programming section of the Report due to the time at which it aired. In the amended Report, "Mystery Hunters" is listed in the correct section of the Report, and the calculation of the average number of hours per week of Core Programming broadcast on the Station's multicast stream has been revised.
