

## **REQUEST FOR ENGINEERING STA EXTENSION**

KCFW-TV, Kalispell, Montana (the “Station”) respectfully seeks extension of the Special Temporary Authority (“STA”) authorized in FCC File No. 0000053737, granted on May 15, 2018. The STA authorizes the Station to operate with an Effective Radiated Power (ERP) of 17 kW. Authorizing the station to continue to operate at 17 kW ERP would permit the station to continue to provide a better-quality signal to viewers and cable headends. An extension will not have any impact on the repacking process and without causing impermissible interference to other stations. Accordingly, grant of the requested STA would be in the public interest.
