**Engineering Statement**

**W48DP-D – FI 127219**

**Waiver Request:**

The Licensee requests a waiver of the freeze on applications to file for a displacement channel in accordance with DA 14-808, as it has received a 120 day notification letter from T-Mobile. The Licensee intends to operate with an STA on a new frequency until such time that the displacement application is processed.

Applicant is seeking to operate on Ch 23 with 15 kW ERP, Full Service mask with the following antenna: directional ALI, model ATC-BP2C12-23, bearing azimuth 255 degrees, C/R HAMSL 117.4 m. Operation on channel 23 is allowable because WNJS, Camden, NJ was to have been repacked to channel 23 but is remaining on channel 22 with a channel sharing agreement.

Please take note of the fact that there is no new construction at the existing tower used by the applicant.

Respectfully submitted,

B. W. St. Clair  
Engineering Consultant
