Subject: Earlier Transition Impact on Anywave Communication Technologies

Project: KSBO

Dear Mr. Hanson,

Anywave Communication Technologies is aware that station KSBO is in the process of requesting a waiver and/or Special Temporary Authorization to perform the transition of KSBO to an earlier phase.

This letter is to confirm that the earlier transition of KSBO will not impair Anywave Communication Technologies' ability to provide the required transmitter and resources needed for stations during all phases of the FCC's channel reassignment transition schedule.

You and your employees of KSBO are permitted to share this letter with the FCC, as required.

Sincerely,

Perry V. PRIESTLEY  
Chief Executive Officer
