

**Request for Extension of Special Temporary Authority  
KYCW-LD (FID 11135)**

Gray Television Licensee, LLC, licensee of KYCW-LD seeks continuation of its authority to operate this station temporarily on Channel 19. As explained in the attached Engineering Statement, the Channel 19 facilities specified herein have allowed the station to provide better service to the community. The Channel 19 facilities detailed in this application were previously used by KGHZ, whose license was surrendered in connection with the Incentive Auction.

Channel 19 was assigned to Gray's co-owned station KYTV in the repack. Gray, therefore, is uniquely positioned to use the Channel 19 facilities on a temporary basis, as it will require only internal coordination to facilitate the transfer of Channel 19 from KYCW to KYTV at the end of the appropriate construction phase. For these reasons, Gray requests permission to continue operating KYCW on a temporary basis from Channel 19 using the technical parameters specified herein in order that KYCW can provide a stronger CW signal to the community.
