

APPLICATION STATUS UPDATE

By Public Notice dated October 30, 2018 (DA 18-1108), the Media Bureau announced that the instant application, which proposes operations on channel 33 for WILT-LD, Wilmington, NC (FID 182320) (File No. 0000052413) (the “WILT Application”), had been deemed mutually exclusive with a displacement application filed by Ameritrade Enterprises, LLC for proposed operations on channel 34 by WQDH-LD, Wilmington, NC (FID 182080) (File No. 0000052705) (the “WQDH Application”). The applications have been assigned to MX Group 57.

The Public Notice provides that the applicants may resolve their mutual exclusivity by unilateral engineering amendment, legal settlement, or engineering settlement during a settlement period between October 30, 2018 and January 10, 2019.

On October 30, 2018, the WQDH Application was unilaterally amended to propose operations on channel 18 rather than channel 34. Accordingly, the WILT Application and the WQDH Application are no longer mutually exclusive, and the WILT Application may now be processed as a singleton.
