

**Station KLEI-TV, Kailua-Kona, Hawaii**  
**Request to Extend Authority to Stay Silent**

As previously reported, Station KLEI-TV is in the process of modifying its main studio in order to facilitate station operations, primarily by relocating its studio to a site closer to a fiber connection that will permit more convenient, cost-effective delivery and distribution of the station's programming. As of May 13, 2018, the station was taken off the air temporarily in connection with that process. The modifications are near completion, but additional time is needed to ensure that all necessary installations and adjustments are properly made.
