**TECHNICAL EXHIBIT**

**2018 DISPLACEMENT/FILING WINDOW FOR LPTV  
AND TV TRANSLATOR STATIONS**

FACILITY: KTVB-LD, FI 125499  
LOS ANGELES, CA  
THE EDGE SPECTRUM INC  
Existing FCC file number BLDVL-20130723ADA

Pursuant to the LPTV/Translator displacement/filing window of 2018 arising from the incentive auction 600 MHz TV band repack, the within application is filed to change the facility as follows: The facility is being displaced by repacked KDOC-TV. We thus change output channel 12 to channel 27, FULL SERVICE mask, 15.0 kW ERP. Antenna is SAM (6) 460 sbs. NIER is less than 5% of the limit for this service; no new tower construction is planned. Site is secured from the public.

Using the specified equipment, pattern and ERP, the application is in compliance with all pertinent portions of §74.793 with respect to all existing part 73 and part 74 licenses, permits and applications known as of the time of filing; however, as a station in the LPTV or TX service which is displaced into the core or otherwise required to modify its facilities in accordance with the presence of an incoming repacked full service station assigned to its previous channel, the within applicant agrees, if necessary, to not operate on the channel or with the service proposed in the within application until any potentially mutually interfering repacked full service station or stations have left their channels pursuant to the relevant phase assignment(s).
