Dear Licensee:

This refers to the above-mentioned application dated December 3, 2018 requesting special temporary authority (STA) to operate at variance. You indicate that this engineering STA request is to operate on Channel 23 at reduced power to and until January 29, 2019. You mentioned that the Applicant has installed the antenna and equipment per the Station's Construction Permit, however, due to equipment malfunctions more time is needed for the Station to operate at full power. The Station has transitioned and is currently operating on Channel 23, but with reduced power at 10 kW ERP.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **June 10, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the last name "Harding" being more prominent.

Kevin R. Harding
