Spring Hill, FL 34608

RE: Leadtime Compliance

Dear Larry

We hereby acknowledge that WGGB, owned and operated by Meredith Corporation's Local Media Group, has requested a statement to ensure the FCC that (a) all project requirements that must be executed in conjunction with the Hitachi-Comark proposal can be completed earlier than the Phase 8 3/13/20 deadline assigned to WGGB, and (b) that this effort will not impair our ability in assisting other phase stations from completing their transition on time.

This document is to serve as our official statement of fitness related to the fulfillment of Quote #P4018 WGGB. We hereby proclaim, and attest in writing, that we have (1) evaluated the full scope of the above named project, and (2) we can fully guarantee that no prior orders, current customer obligations, or future project responsibilities will be inhibited by the early completion of the work associated with this project.

A handwritten signature in black ink, appearing to read "Michael Roosa". The signature is fluid and cursive, written on a white background.

Michael Roosa
Regional Sales Manager - TV Transmission, Compression and Scientific
