KLRU-TV, Austin, Texas  
FAC ID: 8564

**Engineering STA Supporting Statement**

Capital of Texas Public Telecommunications Council requests Special Temporary Authority to operate KLRU-TV at approximately 50 percent of authorized power. A component failure damaged one of the tubes and the manufacturer has indicated the damage may be irreparable. Work is ongoing to bring the station back to full power, but station personnel have indicated a new tube may be required. The licensee will promptly notify the Commission when the station resumes operations at full power.
