

TVStudy Interference Analysis
prepared 26 December 2018 for
WGBO License Partnership, G.P.
WGBO-DT Ch 35 635 kW-DA 403 m

This application seeks to modify the channel 35 facilities of WGBO-DT by a reduction of antenna height and corresponding increase in effective radiated power (ERP). No change in antenna radiation pattern is proposed. The terrain-limited service area of the construction permit facility is 29,796 km², which will be slightly reduced to 29,268 km². Therefore, there is no consequential contour extension and the requirements of the coverage “freeze” are met.

Two TVStudy interference analyses are attached on the following pages. The first was run for the granted WGBO-DT construction permit, with a ***cell size of 2 km and terrain sampling interval of 0.5 km***, the TVStudy parameters specified in the application for that permit. The second was run for the proposed modification, which slightly reduces antenna elevation and slightly increases ERP, using the same analysis parameters.

The authorized WGBO-DT facility is predicted to cause interference to 0.59% of the population within the noise-limited service contour of adjacent channel WHME, South Bend, IN. The proposed modification to WGBO-DT maintains that interference level. Since there is no increase of interference population above that currently authorized, it is believed that the proposed interference is acceptable.

It is also notable that the proposed modification reduces the predicted interference population of adjacent channel WQRF, Rockford, IL, from 0.34% to 0.29%.

TVStudy Analysis of Granted CP

TVStudy Analysis of Proposed Modification

tvstudy v2.2.5 (4uoc83)
Database: localhost, Study: BLANK0000034007, Model: Longley-Rice
Start: 2018.12.26 09:22:55

Study last edited: 2018.12.26 09:22:49

Proposal: WGBO-DT D35 DT CP JOLIET, IL
File number: BLANK0000034007
Facility ID: 12498
Station data: LMS TV 2018-12-25
Record ID: 25076f915f0d91b4015f1700e459147e
Country: U.S.
Zone: I

Proposal "before": WGBO-DT D35 DT BL JOLIET, IL
File number: DTVBL12498
Facility ID: 12498
Station data: LMS TV 2018-12-25
Record ID: DTVBL12498
Country: U.S.

Study has been edited. Stations studied for impact of proposal:
