

**RF Exposure Statement  
W49BE-D Hackettstown, NJ  
Channel 29**

The facility proposed in this application will operate with an effective radiated power (ERP) of 1.5 kW and a center of radiation 42 meters above ground level (AGL). An analysis of the radiation levels at 2 meters AGL indicates the RF exposure level would be well below the allowable limit for an uncontrolled area and therefore meets the requirements. All other current safeguards related to the site with regard to both workers and the general public will remain in place.
