

Cornerstone Television, Inc.  
Request for Silent STA Extension  
W45BT-D, Brookville, PA  
Fac. Id. 53371

Application Description

W45BT-D was displaced from channel 45 on August 10, 2018. In anticipation of this displacement, Cornerstone filed LMS Application 0000050401 on May 16, 2018 during the LPTV displacement window, and also requested temporary authority to go silent beginning August 9, 2018 (LMS Application 0000058553), which was granted by letter dated July 24, 2018. Although the FCC's LMS database reflects a "Licensed and Silent" date of July 24, 2018, the date the STA was granted, W45BT-D ceased operations on August 9, 2018 as its STA request noted and has remained silent since that time.

The FCC granted W45BT-D's displacement application for channel 34 on November 7, 2018 (LMS Authorization 0000050401). Cornerstone has begun planning for construction of its channel 34 facilities and intends to complete construction no later than August 8, 2019. Until those new facilities are constructed, Cornerstone requests continued authority to remain silent up to and including August 8, 2019.
